

Willow Birch Pharma is proud to offer our new line of **INJECTABLE / OPHTHALMIC GRADE API'S**

- Adenosine
- Alprostadil
- Amiodarone Hydrochloride
- Artesunate
- Asparaginase
- Atropine Sulfate
- Betamethasone Acetate
- Betamethasone Sodium Phosphate
- Brimonidine Tartrate
- Bromfenac Sodium
- Bumetanide
- Bupivacaine Hydrochloride
- Calcipotriene Anhydrous
- Calcium Gluconate Monohydrate
- Cyclopentolate Hydrochloride
- Cyclophosphamide
- Cyclosporine A
- Dactinomycin
- Desmopressin Acetate
- Dexamethasone Sodium Phosphate
- Diltiazem Hydrochloride
- Dorzolamide Hydrochloride
- Droperidol
- Epinephrine
- Epinephrine Bitartrate
- Esmolol Hydrochloride
- Floxuridine
- Fluorescein Sodium
- Gatifloxacin Hemihydrate
- Gatifloxacin Sesquihydrate
- Glycopyrrolate
- Human Chorionic Gonadotropin
- Hyaluronidase
- Hydroxocobalamin Acetate
- Hydroxocobalamin Hydrochloride
- Isoproterenol Hydrochloride
- Ivermectin
- Ketorolac Tromethamine
- Labetalol Hydrochloride
- Latanoprost
- Leucovorin Calcium
- Leuprolide Acetate
- Levocarnitine
- L-Glutathione (Reduced)
- Magnesium Sulfate Heptahydrate
- Medroxyprogesterone Acetate
- Methylene Blue
- Methylprednisolone Acetate
- Minocycline Hydrochloride
- Mitomycin
- Moxifloxacin Hydrochloride
- Mycophenolate Mofetil
- Neostigmine Methylsulfate
- Nepafenac
- Nicardipine Hydrochloride
- Norepinephrine Bitartrate
- Ondansetron Hydrochloride
- Oxytocin
- Pentosan Polysulfate Sodium
- Phentolamine Mesylate
- Phenylephrine Hydrochloride
- Prednisolone Acetate
- Prednisolone Sodium Phosphate
- Proparacaine Hydrochloride
- Rocuronium Bromide
- Ropivacaine Hydrochloride
- Sinalcide
- Sirolimus (Rapamycin)
- Sodium Thiosulfate
- Succinylcholine Chloride
- Tacrolimus
- Timolol Maleate
- Tobramycin Sulfate
- Triamcinolone Acetonide
- Triamcinolone Diacetate
- Tropicamide
- Vancomycin Hydrochloride
- Vasopressin
- Vecuronium Bromide
- Vinblastine Sulfate
- Voriconazole

*** THESE API'S HAVE BEEN TESTED FOR BACTERIAL ENDOTOXINS AND/OR MICROBIAL LIMITS**

Willow Birch Pharma does not provide any assurances on the quality nor suitability of finished preparations made with our injectable or ophthalmic grade API's. Sterility, microbial and bacterial endotoxin testing of finished preparations is the sole responsibility of the compounding pharmacy.
